\$ 635,000.00 USD

Curacao - Curacao

Blue Bay

Listing ID: 000872160047

The Reef was designed by architect Henk Bolivar of Bo Architectura in collaboration with ILB interior designers. Central to the design was the seamless transition of the Caribbean outdoors with the interior spaces. Through the sliding doors, you enjoy stunning sea views from throughout the home. This open design connects the living room to the spacious terrace, creating an open living space where a refreshing sea breeze constantly provides pleasant coolness. The apartment has a practical layout; from the living room with open kitchen, the hall gives access to the bedrooms and bathrooms. The guest bedroom is furnished with a double bed and gives equal access to one of the bathrooms. The guest bathroom is fully equipped with high-quality European sanitary ware and modern tiles. A spacious walk-in (rain) shower with thermostatic faucet and hand shower, a floating toilet and a double vanity unit can be found here. The primary bedroom is generously sized. Left and right of the bathroom entrance are the built-in closets. This bathroom again features the same elements and high-quality finishes and a double vanity. All
