

# FOR SALE

\$ 895,000.00 USD

Belize - Stann Creek District

The Reserve

Listing ID: 100032996014

Kim and Dean are excited to present this exclusive listing of this unique private oasis located just north of Placencia Belize. Protected by 24:7 security is an incredible bamboo-built home which is great for those who want to feel one with nature while still enjoying some beautiful amenities that are only accessible to those living in this gated community. The grade A timber bamboo was originally brought in from Vietnam and built in Hawaii before being transported here to Belize. The materials and shape of the buildings are an architectural masterpiece along with being as strong as mild steel with the compression strength of concrete, designed to surpass the toughest hurricane codes in the US. Bamboo homes are durable, low maintenance and naturally pest resistant along with providing a clean indoor air quality, exceeding California air standards and US Green building LEED certified construction. In addition, Bamboo built homes are mold and mildew resistant which is perfect for the warm weather and humidity that Belize offers. This property would be the perfect place to build your own pool on the large 0.995-acre
